

## Profile Story

*This week's feature : Sam Dickey*

Sam was born in Cleveland, Ohio at Fairview Hospital. He grew up in Westlake with his older brother Jimmy. Paige and Jim Dickey are his parents attending Prince of Peace for many years. He graduated from Lawrence Upper School in Sagamore Hills in 2022. Sam attended the University of Miami, Florida and is currently a sophomore at Tri-C majoring in Business Administration.

Sam was baptized at Prince of Peace by Pastor Bishop. He had various experiences during high school and in the summer. One great opportunity was his senior year internship at Prince of Peace where he worked with Megan Harber on various projects including re-design of the bulletin board at the entrance. Sam also did a stint as an Uber delivery driver. He didn't like that one so much, but it gave him an appreciation for those drivers and he now always tips them.

He enjoys playing computer games with his friends across the US. Sam especially likes to keep his relationships with friends in Florida and throughout NE Ohio via these networked games. He also enjoys hiking, traveling and drawing. His most recent trip was to Sedona, AZ where he had the chance to hike in the local Red Rock mountains as well as take a sketching course.

One thing that people may not know about Sam is that he had an Engineering Scholarship at the University of Miami, but he preferred to be back home in Ohio partially because of the weather. Sam likes cold, cloudy days. He hopes to get his associates degree in 2025 from Tri-C and then finish his college career at a school such as Baldwin-Wallace. While he plans to be a business major, his true passion is in graphic design and drawing. He hopes to one day have a business in this field.

Our congregation has many stories like the one Sam experienced. Our members help encourage each other on their path to learn their passions. We know our Lord will be with him every step of the way!
